ZERO DWELL TRUSTED SECURITY ADVISORY COUNCIL

TRUSTED SECURITY ADVISORS (TSA) PROGRAM

ZERO DWELL - TRUSTED SECURITY ADVISORY MISSION:

Build a community of Security Influencers dedicated to educate and advocate for Zero Trust adoption.

Zero-Dwell Trusted Security Advisors (TSAs) are cybersecurity experts who share their knowledge and insights with the worldwide cyber community. They are always curious about "what is next," and they have an unstoppable urge to get their hands on new, exciting security technologies. Their focus is to help communities be cyber aware, assess emerging security methodologies, and work to unite cohorts against attackers and adversarial tradecraft.

Zero-Dwell TSAs have very deep knowledge of cybersecurity, the entire threat landcape, and evolving products, services and methodologies used to combat bad actors. They are also able to bring together diverse platforms, vendors, and solutions, to make informed recommendatiuons and to help solve real world cybersecurity problems.

Two-Tier Membership

Cyber Guardians - Community Board (Initial Members, Member Approvers)
Plaque, Certificate and Lapel Pin for Guardian level

Cyber Defenders - Members who meet minimum community requirements
Certificate and Lapel Pin for Defender level

NOMINATION PROCESS

To be considered for the Zero Dwell- TSA membership, a nomination referral must be first submitted on your behalf by an existing Cyber Guardian.

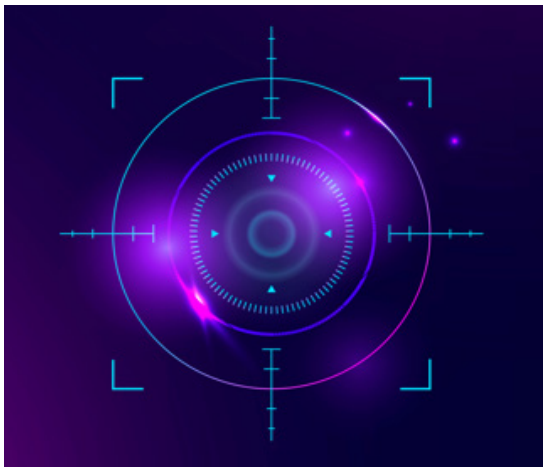
- Point System for earning Community Reward points for ZD-TSA Community Merchandise
- Write Contributed Articles



OTHER ORGANIZATIONS WITH SIMILAR TSA PROGRAMS:

MICROSOFT | CISCO | ADOBE | CITRIX | VMWARE

Xcitium, formerly known as Comodo Security Solutions, is used by more than 5,000 organizational customers & partners around the globe. Xcitium was founded with one simple goal – to put an end to cyber breaches. Our patented Xcitium Essentials ZeroDwell technology uses Kernel-level API virtualization to isolate and remove threats like zero-day malware & ransomware before they cause any damage to any endpoints. ZeroDwell is the cornerstone of Xcitium's endpoint suite which includes pre-emptive endpoint containment, endpoint detection & response (EDR), managed detection & response (MDR), and managed extended detection and response (XDR). Since inception, Xcitium has a track record of zero breaches when fully configured.
